Summary

Full-stack Java developer with over 4 years of experience building scalable web applications. Expert in designing and implementing RESTful APIs using Spring Boot, microservices, and both relational and NoSQL databases. Skilled in automated testing (JUnit, TDD/BDD), CI/CD pipelines, and containerization with Docker and AWS. Comfortable working in agile teams and collaborating across disciplines. Committed to continuous learning and delivering high-quality software solutions.

Experience

Fullstack Web Developer - Freelancer

Full-time · Set 2024 - Present · Itacaré, Bahia, Brazil

- Designed and delivered responsive front-end interfaces using HTML, CSS and JavaScript/TypeScript for 3+ client projects.
- Implemented RESTful APIs with Java and Spring Boot, integrating multiple back-end services and reducing data-exchange latency by ~20%.
- Optimized application performance through code refactoring and query tuning, achieving faster page loads and lower server load.
- Led migration of legacy modules to a microservices architecture, improving scalability and maintainability.

Backend Developer - Equiplano Sistemas

Full-time · Jul 2022 - Jun 2024 · Ilhéus, Bahia, Brazil

- Engineered RESTful APIs with Spring for a public-sector system, serving over 10,000 internal users.
- Optimized complex JPA queries, decreasing execution time by up to 30% and improving overall system responsiveness.
- Managed database schema migrations with Flyway across five major releases, ensuring zero-downtime deployments.
- Integrated asynchronous processing with RabbitMQ, handling thousands of messages daily and enhancing system throughput.
- Created dynamic compliance reports using JasperReports, reducing manual reporting effort by 40%.

Backend Development Internship - Aplopes Tecnologia

Full-time · Abr 2022 - Jun 2022 · Ilhéus, Bahia, Brazil

- Supported development of a high-traffic luxury e-commerce platform, contributing to a 15% improvement in page-load performance.
- Extended Broadleaf Commerce APIs to implement custom business rules specific to the luxury segment.
- Implemented a TDD suite with JUnit, achieving 80% code coverage and reducing regression defects.
- Collaborated daily with a global, multicultural team in English, delivering features within two-week sprint cycles.

Education

Postgraduate Program in Software Engineering with Agile Methods

Universidade Cruzeiro do Sul · Ilhéus, Bahia, Brazil

2025 - 2026

Undergraduate Degree in Systems Analysis and Development

Universidade Cruzeiro do Sul · Ilhéus, Bahia, Brazil

2022 - 2024

Technical Course in Information Technology (integrated with high school)

Instituto Federal de Educação, Ciência e Tecnologia Baiano · Uruçuca, Bahia, Brazil

2019 - 2022

Skills

Programming Languages: Java (8+), JavaScript, TypeScript, SQL

Frameworks & Libraries: Spring Boot, Spring MVC, Spring Data, Spring Security, Hibernate, JPA, MyBatis, HTML5, CSS3, JavaScript/TypeScript

Databases: PostgreSQL, MySQL, SQL Server

Architecture & Design: Microservices, REST APIs, Clean Architecture, SOLID Principles, Design Patterns, Object-Oriented Programming

Testing & Quality: JUnit, Integration Testing, TDD, BDD, Swagger, Postman

DevOps & Tools: Docker, AWS, Git, GitLab, Git Flow, Jenkins, CI/CD, Flyway, RabbitMQ, ActiveMQ, Kafka, JIRA, Confluence, Scrum

Languages

English: Intermediate (B1 - Intermediate)
